7.2.1

Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual

Best Practice -1

Title of the practice:

The title of the practice is “Honouring the Farmers”

Objectives of the Practice:

The main objective of this practice is to arrange a “face to face” programme between successful/innovative/ traditional farmers/ sericulturists and students of our college especially those studying farm-science.

Honouring such farmers motivates the students, builds strong confidence and pride among the farmers.

Moreover, it is an honour to our institution to honour the ‘backbone’ of our nation, the Karmayogis- the farmers.

Students of sericulture are well impressed by the live examples of self-employment, success and improved life-style of the honoured farmers as they quote in their speech. Besides modern technology learnt by students in their study tour to research institutes will be informed to farmers to implement and improve their yield.

The Context:

The practice focused on selecting and honouring the most successful, progressive farmer who consistently produce high crop yield throughout the year even under unfavourable climatic conditions.

PRINCIPAL,
SRI SIDDHARTHA FIRST GRADE COLLEGE
TUMKUR - 572 105.

Such farmer's method of cultivation and measures taken in each and every aspect is expected to be shared in person with our students. Hence, identifying such farmers in selected locality is a bit challenging.

Moreover, when farmers are selected on the basis of traditional, modern, seed farmers/ rearers, innovative farmers etc., who have excelled in the field of sericulture, it was more a challenging task. However, this challenge has been addressed with the help of department of sericulture, Government of Karnataka.

The Practice:

The protocol of the practice involves,

- i. Identification and selection of the farmer/sericulturist to be facilitated as per the fixed norms.
- ii. Inviting the selected farmer in formal pattern and convincing him to attend the programme.
- iii. Based on farmer's convenience fixing a date/day for conducting the programme.
- iv. Farmers are selected based on their experience, achievements and credentials.
- v. Farmers are given the programme chart of the day, well in advance.
- vi. Selection of farmers from a particular locality depends on the criterion fixed for honouring in that specific year.
- vii. The head of the department along with faculty members attends a meeting with the principal
 - a. to finalise the date, time and venue of the programme of honouring the farmers.
 - b. To discuss and finalise the selection process among the list of farmers suitable for that particular year.
 - c. To discuss and get sanction of required expenditure as per the fund approved by the Principal through indent.
 - d. Inviting the management authorities to inaugurate the programme.
 - e. On the day of the programme, the HOD of department of sericulture delivers keynote address, emphasizing the significance of the programme.
 - f. The invited farmers are honoured by the management authorities after the brief introduction of the concerned farmers by the faculty of sericulture.
 - g. Later the facilitated farmers share their experiences, efforts, hurdles faced in the path of success and finally give a strong message to the students to be a self-reliant successful achiever. Farmers speech motivates the students effectively.
 - h. This speech is followed by interaction between farmers and students.
 - i. Before the presidential speech, the faculty members express their views and opinions about the programme of honouring the farmers in particular.
 - j. Before giving vote of thanks, students collect the address, contact number of farmers etc., to observe all his words in live at their fields.

- k. The farmers apart from feeling contented, will be enthusiastic to visit our institution frequently in order to contact and motivate the farm science students by live examples of success.

Evidence of Success:

Students of farm science/ sericulture are much motivated by this practice. The inspirational speech and live examples of farmers have built the needed confidence in students especially those from rural areas to take up agriculture/ sericulture as their main occupation. Some of them have adapted it as subsidiary occupation. However students of final year B.Sc are arranged to visit the alumnis of our college who are graduates with Sericulture subject and have turned into progressive farmers recognised by the state government for their performance. This was possible to achieve mainly through this practice of honouring the successful farmers.

Many of our alumni have established as farmers/Sericulturists and proved successful in the field of sericulture after the face to face interaction in the programme of honouring the farmers. The farmers invited for the programme were from the native locality of the referred alumni. After getting their contact it was possible for our college alumni to flourish well in the field of Sericulture. They in turn are guiding, inspiring and motivating other students of our college when they are contacted for the necessary informative support.

Problems Encountered and Resources Required :

Many farmers who have excelled beyond bench mark are residing in far distance from our college. It is highly challenging to convince them to come all the way to share their knowledge as they give more importance to crop time, rearing period etc., and deny our invitation. Hence exposing our students to the cream of farmers/Sericulturists is not being possible easily.

All farmers who are fit to be honoured based on their credentials are yet to be felicitated. As it requires higher financial resources, this programme is not possible to be organized in macro level.

In survey search for selection of farmers, many farmers had good knowledge of modern technology but were unable to implement in their fields due to insufficient resources and other constraints.

In collaboration with Department of Sericulture, Government of Karnataka, farmers recognized and awarded by the Department need to be trained to share their expertise efficiently in higher education institutes where 'Farm Science/Sericulture' is being taught.

ಕನ್ನಡದ ಮೂಲತಃ ಇಂಗ್ಲಿಷ್ ಕಲಿಕೆ ಮಾಲಿಯಲ್ಲಿ ನಾಲ್ಕನೇ ಮಸ್ತಕವಾದ 'Conversational English' (ಪ್ರತ್ಯಕ್ಷೋತ್ತರ ಕ್ರಮ) ಅಭ್ಯಾಸಕ್ಕಾಗಿ ಮೂಡಿಬಂದಿದೆ. ಈಗಿನ ಜಾಗತಿಕ ಸಂದರ್ಭದಲ್ಲಿ ಇಂಗ್ಲಿಷ್ ಸಂವಹನ ಮಹತ್ವ ಪಡೆದುಕೊಳ್ಳುತ್ತಿದೆ. ಈ ನಿಟ್ಟಿನಲ್ಲಿ ಬರಹಗಾರರು ತಮ್ಮ ಅನುಭವವನ್ನು ಮತ್ತು Radio Siddhartha 90.8 FMದಲ್ಲಿನ ಬೋಧನೆಯನ್ನು ಆಧಾರವಾಗಿಟ್ಟುಕೊಂಡು ಇಂಗ್ಲಿಷ್‌ನಲ್ಲಿ ಹೇಗೆ ಪ್ರಶ್ನೆ ಕೇಳಬೇಕು, ಅದಕ್ಕೆ ಪ್ರತ್ಯುತ್ತರ ಹೇಗೆ ನೀಡಬೇಕೆಂಬುದನ್ನು ಶ್ರೀ ಸಾಮಾನ್ಯರಿಗೆ ಅರ್ಥವಾಗುವ ರೀತಿಯಲ್ಲಿ ರೇಖಾಚಿತ್ರಗಳನ್ನು ಬಳಸಿ ವಿವರಿಸಿದ್ದಾರೆ. ಈ ಕೃತಿಯನ್ನು ಸ್ನೇಹಮಯ ಭಾಷಾ ಶೈಲಿಯಲ್ಲಿ, ದ್ವಿಭಾಷಾ ಪದ್ಧತಿಯಲ್ಲಿ ಬರೆಯಲಾಗಿದೆ. ಈ ಮಸ್ತಕ ಅನೇಕರಿಗೆ ಉಪಯೋಗವಾಗುವುದರೊಂದಿಗೆ ಇಂಗ್ಲಿಷ್ ಕಲಿಯಲಿಚ್ಛಿಸುವವರಿಗೆ ಅಶೇಷವಾಗಿ ಕೂಡ.
